

DIGITAL AGRICULTURE + AGRITECH

Farmer-centric data, services, markets and accountability | 10 Sep 2026

01 VALUE CHAIN

- Capture -> registry -> advice
- Credit/input -> production
- Logistics -> market -> payment
- Outcome + feedback

Date every status; keep farmer control and physical complements visible.

02 TECHNOLOGY

- Remote sensing observes
- GIS analyses; GNSS positions
- IoT senses; AI predicts
- Drone = platform + payload

Date every status; keep farmer control and physical complements visible.

03 PRECISION

- Measured spatial/time need
- Variable treatment + feedback
- Not generic digitisation
- Watch rebound effects

04 MISSION

- IDEA blueprint: June 2021
- DAM approval: 3 Sep 2024
- Outlay Rs 2,817 crore
- AgriStack + Krishi-DSS

● Watch rebound effects

REMEDY

Date every status; keep farmer control and physical complements visible.

DIGITISATION IS A MEANS, NOT THE WELFARE OUTCOME.

Evaluate accuracy, adoption, net income, risk, resources, distribution and remedy.
