- CAUTION: DPI separates shared rails from competing applications, potentially reducing entry
- CAUTION: Platform governance must address self-preferencing, tying, data portability,
- CAUTION: Digital lending unbundles origination, underwriting, funding and servicing,

**ADVANCED DEBATE**
- CAUTION: CBDC design choices include retail versus wholesale, token versus account, privacy and
- CAUTION: Data can be non-rival yet concentrated control creates market power and privacy
- RBI and NPCI: RBI regulates payment systems and authorised operators; NPCI operates
- SEBI, IRDAI and PFRDA: regulate digital distribution in securities, insurance and
