00

STAGE 00 — THE ABC MODEL: WHAT ATTITUDE IS MADE OF

THE ABC MODEL. | WHAT ATTITUDE IS MADE OF | CENTRAL FOCUS | 1. THE ABC MODEL | [1] ATTITUDE IS A STABLE EVALUATIVE DISPOSITION TOWARD A | [2] THE COGNITIVE COMPONENT HOLDS BELIEFS AND KNOWLEDGE ABOUT | [3] THE AFFECTIVE COMPONENT CARRIES EMOTIONAL CHARGE, POSITIVE OR | [4] THE BEHAVIOURAL COMPONENT IS THE PREDISPOSITION TO ACT

CORE CLAIM

- CENTRAL FOCUS
- 1. The ABC model: what attitude is made of
- [1] Attitude is a stable evaluative disposition toward a specific object.
- [2] The cognitive component holds beliefs and knowledge about the object.
- [3] The affective component carries emotional charge, positive or negative.

MECHANISM

- [4] The behavioural component is the predisposition to act toward the object.
- [5] Attitude is object-specific value is general and cross-situational.
- [6] Belief is a single cognitive claim; attitude is an evaluative stance.
- [7] Aptitude is the trainable capacity to perform a role well.
- [8] The ABC model is associated with Rosenberg and Hovland, 1960.

CONSEQUENCE / LIMIT

- VERDICT → Attitude has three components; confusing it with value or aptitude costs marks.
- ANSWER USE → Open any attitude question by defining the ABC model and distinguishing it from value.
- MUST REMEMBER: Attitude has cognitive, affective and behavioural components, while aptitude is capacity, value is an evaluative commitment.
- attitude-behaviour gaps arise through incentives, norms and constraints.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Attitude has three components; confusing it with value or aptitude costs marks.

01

STAGE 01 — HOW ATTITUDES FORM: EXPERIENCE, LEARNING, REINFORCEMENT

HOW ATTITUDES FORM | EXPERIENCE, LEARNING, REINFORCEMENT | CENTRAL FOCUS | 2. HOW ATTITUDES FORM | [1] DIRECT EXPERIENCE WITH AN OBJECT CREATES THE STRONGEST | [2] SOCIAL LEARNING FROM FAMILY, PEERS AND MEDIA SHAPES | [3] REINFORCEMENT THROUGH REPEATED OUTCOMES ATTACHES EVALUATIVE CHARGE. | [4] TWO OFFICERS IN THE SAME OFFICE CAN HOLD

CENTRAL FOCUS → 2. How attitudes form: experience, learning, reinforcement → [1] Direct experience with an object creates the strongest initial attitude. → [2] Social learning from family, peers and media shapes evaluative tendencies. → [3] Reinforcement through repeated outcomes attaches evaluative charge.

CORE CLAIM

- CENTRAL FOCUS
- 2. How attitudes form: experience, learning, reinforcement
- [1] Direct experience with an object creates the strongest initial attitude.
- [2] Social learning from family, peers and media shapes evaluative tendencies.

MECHANISM

- [3] Reinforcement through repeated outcomes attaches evaluative charge.
- [4] Two officers in the same office can hold opposite attitudes toward the same community.
- [5] Formation explains attitude but does not justify it ethically.
- [6] Training can intervene at any formation pathway to reshape attitude.

CONSEQUENCE / LIMIT

- [7] The affective component often resists change even when beliefs shift.
- [8] Institutional incentives can reinforce or corrode attitudes over time.
- VERDICT → Attitudes are formed, not born; understanding formation identifies training targets.
- ANSWER USE → Explain why attitudes differ before prescribing a change mechanism.

MECHANISM / VERDICT — ANSWER USE → Explain why attitudes differ before prescribing a change mechanism.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Attitudes are formed, not born; understanding formation identifies training targets.

02

STAGE 02 — HOVLAND-YALE PERSUASION: SOURCE, MESSAGE, AUDIENCE, CHANNEL

HOVLAND-YALE PERSUASION | SOURCE, MESSAGE, AUDIENCE, CHANNEL | CENTRAL FOCUS | 3. HOVLAND-YALE PERSUASION | [1] THE COMMUNICATOR'S CREDIBILITY AND EXPERTISE DETERMINE SOURCE EFFECT. | [2] THE MESSAGE'S CONTENT, FRAMING AND EMOTIONAL TONE SHAPE | [3] THE AUDIENCE'S PREDISPOSITIONS DETERMINE RESISTANCE OR OPENNESS. | [4] THE CHANNEL OR MEDIUM WAS ADDED LATER FROM

CENTRAL FOCUS

3. Hovland-Yale persuasion: source, message, audience, channel → [1] The communicator's credibility and expertise determine source effect. → [2] The message's content, framing and emotional tone shape reception.

CORE CLAIM

- CENTRAL FOCUS
- 3. Hovland-Yale persuasion: source, message, audience, channel
- [1] The communicator's credibility and expertise determine source effect.
- [2] The message's content, framing and emotional tone shape reception.

MECHANISM

- [3] The audience's predispositions determine resistance or openness.
- [4] The channel or medium was added later from wider communication research.
- [5] ASHA workers delivering vernacular vaccination messages illustrate source credibility.
- [6] A gazette notification to illiterate beneficiaries shows audience-channel mismatch.

CONSEQUENCE / LIMIT

- [7] Algorithmic micro-targeting transforms the audience variable at scale.
- VERDICT → Effective persuasion activates all variables; the channel is not part of the original Yale triad.
- ANSWER USE → Structure any persuasion or campaign-effectiveness answer around these four variables.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Effective persuasion activates all variables; the channel is not part of the original Yale triad.

03

STAGE 03 — COGNITIVE DISSONANCE: THREE PATHS, ONE ETHICAL RISK

COGNITIVE DISSONANCE | THREE PATHS, ONE ETHICAL RISK | CENTRAL FOCUS | 4. COGNITIVE DISSONANCE | [1] DISSONANCE ARISES WHEN BEHAVIOUR CONTRADICTS A HELD ATTITUDE. | [2] PATH A | CHANGE THE ATTITUDE TO MATCH THE BEHAVIOUR. | [3] PATH B

CORE CLAIM

- CENTRAL FOCUS
- 4. Cognitive dissonance: three paths, one ethical risk
- [1] Dissonance arises when behaviour contradicts a held attitude.
- [2] Path A: change the attitude to match the behaviour.

MECHANISM

- [3] Path B: change future behaviour to match the attitude.
- [4] Path C: add a self-justifying cognition, the rationalisation path.
- [5] Path C is the ethically dangerous one in administration.
- [6] Small compromises rationalised once consolidate into settled practice.

CONSEQUENCE / LIMIT

- [7] Ethics review and peer accountability interrupt the rationalisation cycle.
- [8] Whistleblower protection supports officers who choose Path B.
- VERDICT → Rationalisation, not dissonance itself, is the ethical risk multiplier.
- ANSWER USE → Use the three-path framework whenever a question involves value erosion or corruption creep.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Rationalisation, not dissonance itself, is the ethical risk multiplier.

04

STAGE 04 — THE ATTITUDE-BEHAVIOUR GAP: WHY GOOD ATTITUDES FAIL

THE ATTITUDE-BEHAVIOUR GAP | WHY GOOD ATTITUDES FAIL | CENTRAL FOCUS | 5. THE ATTITUDE-BEHAVIOUR GAP | [1] LAPIERE'S 1934 STUDY SHOWED STATED ATTITUDES PREDICTED SPECIFIC | [2] SITUATIONAL PRESSURE CAN OVERRIDE EVEN STRONGLY HELD POSITIVE | [3] INSTITUTIONAL INCENTIVES MAY REWARD CONDUCT THAT CONTRADICTS DECLARED | [4] SOCIAL NORMS IN AN OFFICE CAN NORMALISE CONDUCT

CORE CLAIM

- CENTRAL FOCUS
- 5. The attitude-behaviour gap: why good attitudes fail
- [1] LaPiere's 1934 study showed stated attitudes predicted specific acts poorly.
- [2] Situational pressure can override even strongly held positive attitudes.

MECHANISM

- [3] Institutional incentives may reward conduct that contradicts declared values.
- [4] Social norms in an office can normalise conduct that individuals privately oppose.
- [5] RTI mandates are a binding external constraint closing the transparency gap.
- [6] Audit trails make discretionary acts accountable to evidence.

CONSEQUENCE / LIMIT

- [7] Whistleblower protection reduces the cost of acting on principled attitudes.
- [8] Attitude is necessary but insufficient; institutional design is the bridge.
- VERDICT → Close the gap with institutional constraint, not more exhortation.
- ANSWER USE → Use as the limitation paragraph in any answer that praises attitude change.

MECHANISM / VERDICT — ANSWER USE → Use as the limitation paragraph in any answer that praises attitude change.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Close the gap with institutional constraint, not more exhortation.

05

STAGE 05 — PERSUASION, MANIPULATION AND PROPAGANDA: THE ETHICAL SPECTRUM

PERSUASION, MANIPULATION AND PROPAGANDA | THE ETHICAL SPECTRUM | CENTRAL FOCUS | 6. PERSUASION, MANIPULATION AND PROPAGANDA | [1] PERSUASION RESPECTS AUDIENCE AUTONOMY AND RELIES ON TRUTHFUL | [2] MANIPULATION EXPLOITS COGNITIVE BIASES OR CONCEALS INTENT. | [3] PROPAGANDA USES REPETITION AND EMOTIONAL FRAMING AT SCALE | [4] SWACHH BHARAT WALL PAINTINGS WITH IDENTIFIED SPONSORSHIP ARE

CENTRAL FOCUS → 6. Persuasion, manipulation and propaganda: the ethical spectrum → [1] Persuasion respects audience autonomy and relies on truthful argument. → [2] Manipulation exploits cognitive biases or conceals intent. → [3] Propaganda uses repetition and emotional framing at scale to bypass critical evaluation.

CORE CLAIM

- CENTRAL FOCUS
- 6. Persuasion, manipulation and propaganda: the ethical spectrum
- [1] Persuasion respects audience autonomy and relies on truthful argument.
- [2] Manipulation exploits cognitive biases or conceals intent.

MECHANISM

- [3] Propaganda uses repetition and emotional framing at scale to bypass critical evaluation.
- [4] Swachh Bharat wall paintings with identified sponsorship are legitimate persuasion.
- [5] Undisclosed paid influencers suppressing criticism cross the manipulation line.
- [6] Fear-based state campaigns without disclosure shade toward propaganda.

CONSEQUENCE / LIMIT

- [7] The ethical test is transparency of intent and audience autonomy.
- [8] The same digital channel enables both legitimate information and disinformation.
- VERDICT → Label the practice precisely: persuasion, manipulation or propaganda, then justify.
- ANSWER USE → Apply this spectrum to any social-media, campaign or information-governance question.

MECHANISM / VERDICT — VERDICT → Label the practice precisely: persuasion, manipulation or propaganda, then justify.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: ANSWER USE → Apply this spectrum to any social-media, campaign or information-governance question.

06

STAGE 06 — MORAL ATTITUDE VERSUS POLITICAL ATTITUDE

MORAL ATTITUDE VERSUS POLITICAL ATTITUDE | CENTRAL FOCUS | 7. MORAL ATTITUDE VERSUS POLITICAL ATTITUDE | [1] MORAL ATTITUDE JUDGES RIGHT AND WRONG ACROSS CONTEXTS | [2] POLITICAL ATTITUDE EVALUATES PARTIES AND POWER CONTESTS; IT | [3] CCS CONDUCT RULES 1964, RULE 5 RESTRICTS POLITICAL | [4] CCS CONDUCT RULES 1964, RULE 7 RESTRICTS ELECTION | [5] NON-PARTISANSHIP COVERS OFFICIAL CONDUCT, NOT PRIVATE BELIEF OR

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS	[3] CCS Conduct Rules 1964, Rule 5 restricts political participation.	[7] Moral objection framed in law and public interest is principled dissent.
7. Moral attitude versus political attitude	[4] CCS Conduct Rules 1964, Rule 7 restricts election canvassing.	VERDICT → Retain moral judgement; bracket political preference; distinguish duty from partisanship.
[1] Moral attitude judges right and wrong across contexts; it must be retained.	[5] Non-partisanship covers official conduct, not private belief or voting.	ANSWER USE → Use whenever a question tests impartiality, neutrality or the limits of official conduct.
[2] Political attitude evaluates parties and power contests; it must be bracketed.	[6] Policy awareness and candid briefing are duties, not partisan acts.	

CORE CLAIM

- CENTRAL FOCUS
- 7. Moral attitude versus political attitude
- [1] Moral attitude judges right and wrong across contexts; it must be retained.
- [2] Political attitude evaluates parties and power contests; it must be bracketed.

MECHANISM

- [3] CCS Conduct Rules 1964, Rule 5 restricts political participation.
- [4] CCS Conduct Rules 1964, Rule 7 restricts election canvassing.
- [5] Non-partisanship covers official conduct, not private belief or voting.
- [6] Policy awareness and candid briefing are duties, not partisan acts.

CONSEQUENCE / LIMIT

- [7] Moral objection framed in law and public interest is principled dissent.
- VERDICT → Retain moral judgement; bracket political preference; distinguish duty from partisanship.
- ANSWER USE → Use whenever a question tests impartiality, neutrality or the limits of official conduct.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Retain moral judgement; bracket political preference; distinguish duty from partisanship.

07

STAGE 07 — POSITIVE VERSUS NEGATIVE MINDSET IN RULE INTERPRETATION

POSITIVE VERSUS NEGATIVE MINDSET IN RULE INTERPRETATION | CENTRAL FOCUS | 8. POSITIVE VERSUS NEGATIVE MINDSET IN RULE INTERPRETATION | [1] A POSITIVE MINDSET READS RULES WITH THEIR PUBLIC | [2] A NEGATIVE MINDSET TREATS RULES AS OBSTACLES OR | [3] A FACILITATIVE OFFICER HELPS CORRECT A CURABLE DOCUMENT | [4] A CYNICAL OFFICER EXPLOITS AMBIGUITY TO DEMAND INFORMAL | [5] POSITIVE INTERPRETATION ENABLES FAIR ACCESS WITHOUT IGNORING MANDATORY

CORE CLAIM

- CENTRAL FOCUS
- 8. Positive versus negative mindset in rule interpretation
- [1] A positive mindset reads rules with their public purpose in view.
- [2] A negative mindset treats rules as obstacles or sources of discretionary power.

MECHANISM

- [3] A facilitative officer helps correct a curable document error.
- [4] A cynical officer exploits ambiguity to demand informal payment.
- [5] Positive interpretation enables fair access without ignoring mandatory conditions.
- [6] Negative interpretation produces delay, denial and extraction.

CONSEQUENCE / LIMIT

- [7] Stress amplifies the dominant mindset in crisis situations.
- [8] Purposive but accountable reading avoids both literalism and arbitrary benevolence.
- VERDICT → Read rules with purpose, apply with accountability, explain with reasons.
- ANSWER USE → Apply this dual-lens to any question about discretion, mindset or citizen-facing service.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Read rules with purpose, apply with accountability, explain with reasons.

08

STAGE 08 — ATTITUDE MALLEABILITY: WILLIAM JAMES AND TRAINING DESIGN

ATTITUDE MALLEABILITY | WILLIAM JAMES AND TRAINING DESIGN | CENTRAL FOCUS | 9. ATTITUDE MALLEABILITY | [1] THE MALLEABILITY PRINCIPLE HOLDS THAT ATTITUDES ARE REVISABLE | [2] REFLECTION, FIELD IMMERSION AND MENTORING RESHAPE EVALUATIVE STANCES. | [3] MISSION KARMAYOGI MODULES TARGET COGNITIVE AND AFFECTIVE COMPONENTS | [4] FOUNDATION-COURSE IMMERSION IN UNDERSERVED COMMUNITIES BUILDS EMPATHY

CENTRAL FOCUS → 9. Attitude malleability: William James and training design → [1] The malleability principle holds that attitudes are revisable, not fixed. → [2] Reflection, field immersion and mentoring reshape evaluative stances. → [3] Mission Karmayogi modules target cognitive and affective components.

CORE CLAIM

- CENTRAL FOCUS
- 9. Attitude malleability: William James and training design
- [1] The malleability principle holds that attitudes are revisable, not fixed.
- [2] Reflection, field immersion and mentoring reshape evaluative stances.

MECHANISM

- [3] Mission Karmayogi modules target cognitive and affective components.
- [4] Foundation-course immersion in underserved communities builds empathy.
- [5] Malleability is not victim-blaming: structural constraints need structural reform.
- [6] Periodic refresher training prevents cynicism and value erosion.

CONSEQUENCE / LIMIT

- [7] Provenance caution: the attributed William James sentence is not traceable to his writings.
- VERDICT → Attitudes can be changed; the change endures only with institutional reinforcement.
- ANSWER USE → Use for any question about training, attitude change, or the William James quotation.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Attitudes can be changed; the change endures only with institutional reinforcement.

09

STAGE 09 — INSTITUTIONAL CLOSURE: CODES, CONSTRAINTS AND THE RESIDUAL GAP

INSTITUTIONAL CLOSURE | CODES, CONSTRAINTS AND THE RESIDUAL GAP | CENTRAL FOCUS | 10. INSTITUTIONAL CLOSURE | [1] PERSUASION-BASED REFORM IS SLOWER BUT MORE DURABLE ONCE | [2] RULE-BASED CONSTRAINT IS FASTER BUT RISKS BOX-TICKING COMPLIANCE | [3] CODE OF ETHICS TARGETS INTERNALISED COMMITMENT; CODE OF | [4] RTI, AUDIT TRAILS AND WHISTLEBLOWER PROTECTION ARE BINDING

CENTRAL FOCUS → 10. Institutional closure: codes, constraints and the residual gap → [1] Persuasion-based reform is slower but more durable once internalised. → [2] Rule-based constraint is faster but risks box-ticking compliance. → [3] Code of ethics targets internalised commitment; code of conduct targets external compliance.

CORE CLAIM

- CENTRAL FOCUS
- 10. Institutional closure: codes, constraints and the residual gap
- [1] Persuasion-based reform is slower but more durable once internalised.
- [2] Rule-based constraint is faster but risks box-ticking compliance.
- [3] Code of ethics targets internalised commitment; code of conduct targets external compliance.

MECHANISM

- [4] RTI, audit trails and whistleblower protection are binding constraints.
- [5] Training without institutional reform becomes a box-ticking exercise.
- [6] Institutional constraint without attitude change inverts when monitoring relaxes.
- [7] The administrator must calibrate both strategies to the governance context.
- [8] Durable ethical conduct requires values contained within institutions.

CONSEQUENCE / LIMIT

- VERDICT → Neither persuasion alone nor constraint alone suffices; both must be calibrated together.
- ANSWER USE → Close any attitude-change answer with the institutional-closure qualification.
- CLOSE DISTINCTION: Persuasion is reason-giving or influence that preserves agency.
- coercion removes meaningful choice, manipulation hides or distorts reasons, nudging changes choice architecture, and propaganda systematically biases information.

MECHANISM / VERDICT — VERDICT → Neither persuasion alone nor constraint alone suffices; both must be calibrated together.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: ANSWER USE → Close any attitude-change answer with the institutional-closure qualification.

10

STAGE 10 — TRAP DETECTION: WHAT COSTS MARKS IN ATTITUDE QUESTIONS

TRAP DETECTION | WHAT COSTS MARKS IN ATTITUDE QUESTIONS | CENTRAL FOCUS | 11. TRAP DETECTION | [1] ATTITUDE AND VALUE ARE RELATED BUT NOT IDENTICAL | VALUE IS BROADER. | [2] POSITIVE ATTITUDE DOES NOT GUARANTEE ETHICAL BEHAVIOUR | GAP EXISTS.

CORE CLAIM	MECHANISM	CONSEQUENCE / LIMIT
CENTRAL FOCUS	[4] Strong attitude does not always predict behaviour: situational override.	VERDICT → The trap is always an absolute claim where the correct position is qualified.
11. Trap detection: what costs marks in attitude questions	[5] Dissonance is not always resolved ethically: rationalisation is common.	ANSWER USE → Scan each MCQ option for unqualified absolutes before selecting the answer.
[1] Attitude and value are related but not identical: value is broader.	[6] Persuasion and manipulation are not ethically identical: autonomy differs.	EVIDENCE / AUTHORITY / APPLICATION LIMIT: Administrative persuasion must disclose purpose, use credible evidence, protect vulnerable groups and
[2] Positive attitude does not guarantee ethical behaviour: gap exists.	[7] Channel is not part of the original Hovland-Yale 1953 triad.	named campaigns require source and outcome discipline rather than assuming that communication caused behaviour change.

CORE CLAIM

- CENTRAL FOCUS
- 11. Trap detection: what costs marks in attitude questions
- [1] Attitude and value are related but not identical: value is broader.
- [2] Positive attitude does not guarantee ethical behaviour: gap exists.
- [3] Persuasion is not inherently unethical: it depends on truthfulness.

MECHANISM

- [4] Strong attitude does not always predict behaviour: situational override.
- [5] Dissonance is not always resolved ethically: rationalisation is common.
- [6] Persuasion and manipulation are not ethically identical: autonomy differs.
- [7] Channel is not part of the original Hovland-Yale 1953 triad.
- [8] Non-partisanship does not require enforced political blankness of mind.

CONSEQUENCE / LIMIT

- VERDICT → The trap is always an absolute claim where the correct position is qualified.
- ANSWER USE → Scan each MCQ option for unqualified absolutes before selecting the answer.
- EVIDENCE / AUTHORITY / APPLICATION LIMIT: Administrative persuasion must disclose purpose, use credible evidence, protect vulnerable groups and
- named campaigns require source and outcome discipline rather than assuming that communication caused behaviour change.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → The trap is always an absolute claim where the correct position is qualified.

11

STAGE 11 — PYQ SYNTHESIS AND ANSWER ARCHITECTURE

PYQ SYNTHESIS AND ANSWER ARCHITECTURE | CENTRAL FOCUS | 12. PYQ SYNTHESIS AND ANSWER ARCHITECTURE | [1] 2020 Q4(b) TESTED POSITIVE ATTITUDE UNDER STRESS | USE ABC MODEL AND CRISIS EXAMPLE. | [2] 2021 Q4(a) TESTED BUILDING SUITABLE ATTITUDE | USE FORMATION PATHWAYS AND TRAINING DESIGN. | [3] 2022 Q2(a) TESTED POSITIVE VERSUS NEGATIVE MINDSET

CENTRAL FOCUS → 12. PYQ synthesis and answer architecture → [1] 2020 Q4(b) tested positive attitude under stress: use ABC model and crisis example. → [2] 2021 Q4(a) tested building suitable attitude: use formation pathways and training design. → [3] 2022 Q2(a) tested positive versus negative mindset: use dual-lens rule-interpretation frame.

CORE CLAIM

- CENTRAL FOCUS
- 12. PYQ synthesis and answer architecture
- [1] 2020 Q4(b) tested positive attitude under stress: use ABC model and crisis example.
- [2] 2021 Q4(a) tested building suitable attitude: use formation pathways and training design.

MECHANISM

- [3] 2022 Q2(a) tested positive versus negative mindset: use dual-lens rule-interpretation frame.
- [4] 2023 Q3(b) tested William James malleability: use provenance caution and institutional support.
- [5] 2025 Q1(a) tested social-media ethics: use persuasion-at-scale and Hovland-Yale variables.
- [6] Define attitude via ABC before applying it to the scenario.

CONSEQUENCE / LIMIT

- [7] Always note the attitude-behaviour gap as a qualification.
- VERDICT → Every attitude answer moves from definition to mechanism, example, gap and institutional closure.
- ANSWER USE → Use as the final revision checklist before writing any GS-IV attitude answer.

ANSWER-GRABBING LINE — WRITE/ADAPT IN THE EXAM: VERDICT → Every attitude answer moves from definition to mechanism, example, gap and institutional closure.

E

EXTRA — SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT | 1. ARCHITECTURE | 2. CONCEPTS AND DISTINCTIONS | 3. DETAILED TREATMENT | 4. INSTITUTIONAL AND POLICY APPLICATION | 5. INDIAN APPLICATIONS AND BOUNDARY CASES | 6. LIMITATIONS AND TRADE-OFFS | 7. MUST-KNOW FACTS FOR ADVANCED PRELIMS

OPTIONAL SOURCE DEPTH

- 1. Architecture
- 2. Concepts and distinctions
- 3. Detailed treatment
- 4. Institutional and policy application

ADVANCED DEBATE

- 5. Indian applications and boundary cases
- 6. Limitations and trade-offs
- 7. Must-Know Facts for Advanced Prelims
- 8. Advanced Prelims traps

LEGACY / NUANCE

- 9. Current application
- 10. PYQ-based analytical application
- 11. Mains-ready framework
- 12. Probable questions

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
