E

EXTRA SUBORDINATE ENRICHMENT — ONLY AFTER THE COMPLETE CORE

OPTIONAL ADVANCED ENRICHMENT | 1. HIGH-YIELD ANALYTICAL REFINEMENTS | 2. THREE ADVANCED COMPARISONS | 3. CAUTION LEDGER | THE SAFEST THESIS IS TECHNOLOGY TRANSFER INSIDE A LOCAL | USE MATERIAL AS CHRONOLOGY | AKBAR'S RED SANDSTONE - JAHANGIR | NUR JAHAN'S WHITE-MARBLE TURN - SHAH JAHAN'S MARBLE REFINEMENT.

OPTIONAL SOURCE DEPTH
- 1. HIGH-YIELD ANALYTICAL REFINEMENTS
- 2. THREE ADVANCED COMPARISONS
- 3. CAUTION LEDGER
- The safest thesis is technology transfer inside a local craft world , not "foreign style replaces Indian style".

ADVANCED DEBATE
- Use material as chronology : Akbar's red sandstone - Jahangir / Nur Jahan's white-marble turn - Shah Jahan's marble refinement.
- Use typology as argument : minar, mosque, tomb, fort, planned city, garden and imambara answer different political and social needs.
- Name Ustad Ahmad Lahori only with the workshop qualification.
- Mention Gujarat here as an influence line, not as a fully developed separate school unless a question explicitly supplies evidence.

LEGACY / NUANCE
- Mention Kashmir chiefly through Mughal gardens in this topic.
- Keep Indo-Islamic and colonial Indo-Saracenic revival separate; the latter belongs to Topic 05.
- HIGH-YIELD ANALYTICAL REFINEMENTS - The safest thesis is technology transfer inside a local craft world , not "foreign style replaces Indian style".
- Do not let reuse at Qutb become the whole story of Indo-Islamic architecture.

OPTIONAL STATUS — This optional depth is unnecessary for a competent core answer; use it only for added nuance after the complete core has been written.
