+-----+
| ILLUSTRATIONS ATTACHED TO CLAIMS |
+-----+
| 01. A constitutional monarch may be called sovereign in title while real powers lie |
| elsewhere; Gauba calls this titular sovereignty (PDF p.187) |
| 02. Revolutionary moments can produce a temporary split between legal title and actual |
| control; Gauba cites cases such as Cromwell, Napoleon and the Bolsheviks as historical |
| illustrations of de facto authority before legal settlement (PDF pp.187-188) |
| 03. Federal systems do not prove divided sovereignty in Gauba's argument; they show divided |
| governmental powers under one state sovereignty (PDF pp.186-187) |
| 04. Pluralist theory highlights churches, trade unions, cooperatives, chambers of commerce |
| and cultural associations as bodies with real social value independent of state creation |
| (PDF pp.196-197) |
| 05. A classroom shortcut is useful: when a question asks "who is legally final?" think |
| Austin; when it asks "who is really obeyed?" think political sovereignty; when it asks "who |
| is the source of legitimacy?" think popular sovereignty |

ASCII MASTER FLOW – PANEL 8/17: Comparison Matrix

+-----+	
COMPARISON MATRIX	
+-----+	
01. LEGAL SOVEREIGNTY Exam-ready meaning = Definite, organized and sanction-backed	
authority recognized by law; closest to Austin's formulation (PDF pp.183-190)	
02. POLITICAL SOVEREIGNTY Exam-ready meaning = The effective power behind the legal	
sovereign; Dicey's "other sovereign" to which formal authority must bow (PDF pp.189-190)	
03. POPULAR SOVEREIGNTY Exam-ready meaning = The people in corporate capacity are the	
source of authority; government is their agent, not the sovereign itself (PDF pp.182-193)	
04. INTERNAL SOVEREIGNTY Exam-ready meaning = Final authority over individuals and	
associations within the territory (PDF pp.179-180)	
05. EXTERNAL SOVEREIGNTY Exam-ready meaning = Independence from foreign control and	
equality in international law (PDF pp.180-182)	
06. DE JURE SOVEREIGNTY Exam-ready meaning = Legal title to sovereignty even if actual	
control has slipped (PDF pp.187-188)	
07. DE FACTO SOVEREIGNTY Exam-ready meaning = Actual control without settled legal	
recognition, usually transitional (PDF pp.187-188)	
08. STATE Exam-ready meaning = The continuing abstract entity to which sovereignty belongs	
(PDF pp.185-187, 202-203)	
09. GOVERNMENT Exam-ready meaning = The changeable machinery or agent exercising powers on	
behalf of the state (PDF pp.185-187, 202-203)

```
+-----+
| EXAMINER TRAP FIREWALL (1/2)                                     |
+-----+
| 01. TRAP: "Austin means the sovereign has no moral or social limits." => REPAIR: Gauba |
| explicitly says Austin's theory dwells on legal form and does not deny moral or social |
| restraints in practice; it only denies a legally superior human authority above the     |
| sovereign (PDF pp.184-185)                                         |
| 02. TRAP: "Rousseau's popular sovereignty means the elected government is sovereign." => |
| REPAIR: Rousseau treats government as agent of the general will; sovereignty remains with |
| the people in their corporate capacity (PDF pp.182-183, 190-193)   |
| 03. TRAP: "Federalism proves sovereignty is divided." => REPAIR: Gauba distinguishes    |
| sovereignty from governmental powers; powers may be distributed while sovereignty remains |
| one (PDF pp.186-187)                                              |
| 04. TRAP: "Pluralists are anarchists." => REPAIR: Pluralists limit and morally qualify the |
| state; they do not abolish it, and they retain coordinating functions for it (PDF       |
| pp.197-198)                                                       |
| 05. TRAP: "Popular sovereignty is just majority whim." => REPAIR: Rousseau's general will is |
| presented as the common or real interest, not the mere sum of momentary particular desires |
| (PDF pp.191-193)                                                  |
| 06. TRAP: "Kautilya and Austin give the same theory because both emphasize a ruler." => |
| REPAIR: Kautilya's seven-limbed state distributes attention across administration,        |
| territory, finance, force and alliance; Austin supplies a legal criterion of sovereignty |
| 07. TRAP: "Kautilya said states have no permanent friends or enemies." => REPAIR: This maxim |
| is not traceable to Gauba or to the Socio-Political Philosophy Kautilya synopsis used here; |
| it is more reliably associated with Lord Palmerston. Treat any such attribution as unsafe  |
| and answer via the verified seven-limbed-state material instead (see ?6)                |
+-----+
```

```
+-----+
| EXAMINER TRAP FIREWALL (2/2) |
+-----+
| 08. TRAP: "Pluralism proves the state is powerless or that all associations count equally." |
| => REPAIR: Pluralism's democratic value is that it disperses power, protects associational |
| loyalty and checks executive/government overreach - but its own defenders (and later critics |
| such as Dahl and Lindblom, discussed in the companion advanced file) concede real limits: |
| unequal bargaining power between associations, the coordination problem of who arbitrates |
| when associations conflict, and the risk that "federal authority" dissolves into stalemate |
| unless the state retains a residual coordinating capacity. A good answer credits pluralism's |
| democratic gain without treating dispersal of power as automatically equal or self- |
| coordinating |
| 09. TRAP: 2022: Bodin on sovereignty as absolute, perpetual and undivided |
| 10. TRAP: 2023: Laski's rejection of absolute sovereignty |
| 11. TRAP: 2024: Arthasastra insights on sovereignty and modern relevance |
| 12. TRAP: 2025 (handle with caution): A question framed around "Kautilya's sovereignty |
| through the maxim that there is no permanent friend or enemy" rests on an attribution this |
| file cannot verify from either source text. If this framing appears, name the caution |
| explicitly (Palmerston provenance, absent from the Kautilya synopsis) before answering from |
| the verified seven-limbed state material => REPAIR: do not reproduce the maxim as a settled |
| Kautilya quotation |
| 13. TRAP: PYQ trap: identify the thinker's distinctive problem first => REPAIR: legal |
| finality (Bodin/Austin), plural allegiance (Laski), or preservation of a seven-limbed state |
| under changing internal and external conditions (Kautilya) |
