

SOLVED PRACTICE WORKBOOK

Jammu & Kashmir and Cross-Border Terrorism - Learner-v2 Refreshed

UPSC complete learning session | Foundation to advanced | Concepts, evidence, practice and answer writing

Original deterministic study visual; labels are explanatory, not textual quotations.

Source order: repository knowledge -> official current linkage -> clearly marked analysis. No fabricated PYQs or statistics.

CONTENTS / WORKBOOK INDEX

Major learning parts and meaningful subtopics are listed in document order. Page numbers are generated from the final PDF layout; PDF bookmarks mirror the same hierarchy.

Jammu & Kashmir and Cross-Border Terrorism - Solved Practice Workbook 5

BASIC MCQS / REMEDIATION 5

Q1. Which statement correctly identifies Accession anchor?	5
Q2. Which option preserves the legal or institutional boundary of Accession anchor?	5
Q3. Which statement uses Accession anchor without changing its institution, law or status?	5
Q4. Which option avoids the standard UPSC close-option trap about Accession anchor?	6
Q5. Which statement correctly identifies LoC legal-status boundary?	6
Q6. Which option preserves the legal or institutional boundary of LoC legal-status boundary?	6
Q7. Which statement uses LoC legal-status boundary without changing its institution, law or status?	6
Q8. Which option avoids the standard UPSC close-option trap about LoC legal-status boundary?	7
Q9. Which statement correctly identifies Proxy-war mechanism?	7
Q10. Which option preserves the legal or institutional boundary of Proxy-war mechanism?	7
Q11. Which statement uses Proxy-war mechanism without changing its institution, law or status?	7
Q12. Which option avoids the standard UPSC close-option trap about Proxy-war mechanism?	8
Q13. Which statement correctly identifies Attribution gradient?	8
Q14. Which option preserves the legal or institutional boundary of Attribution gradient?	8
Q15. Which statement uses Attribution gradient without changing its institution, law or status?	8
Q16. Which option avoids the standard UPSC close-option trap about Attribution gradient?	9
Q17. Which statement correctly identifies Ceasefire understanding?	9
Q18. Which option preserves the legal or institutional boundary of Ceasefire understanding?	9
Q19. Which statement uses Ceasefire understanding without changing its institution, law or status?	9
Q20. Which option avoids the standard UPSC close-option trap about Ceasefire understanding?	10
Q21. Which statement correctly identifies Separate security metrics?	10
Q22. Which option preserves the legal or institutional boundary of Separate security metrics?	10
Q23. Which statement uses Separate security metrics without changing its institution, law or status?	10
Q24. Which option avoids the standard UPSC close-option trap about Separate security metrics?	11
Q25. Which statement correctly identifies OGW evidentiary boundary?	11
Q26. Which option preserves the legal or institutional boundary of OGW evidentiary boundary?	11
Q27. Which statement uses OGW evidentiary boundary without changing its institution, law or status?	11

Q28. Which option avoids the standard UPSC close-option trap about OGW evidentiary boundary?	12
Q29. Which statement correctly identifies OGW function map?	12
Q30. Which option preserves the legal or institutional boundary of OGW function map?	12
Q31. Which statement uses OGW function map without changing its institution, law or status?	12
Q32. Which option avoids the standard UPSC close-option trap about OGW function map?	13
Q33. Which statement correctly identifies OGW response chain?	13
Q34. Which option preserves the legal or institutional boundary of OGW response chain?	13
Q35. Which statement uses OGW response chain without changing its institution, law or status?	13
Q36. Which option avoids the standard UPSC close-option trap about OGW response chain?	14
Q37. Which statement correctly identifies Reorganisation structure?	14
Q38. Which option preserves the legal or institutional boundary of Reorganisation structure?	14
Q39. Which statement uses Reorganisation structure without changing its institution, law or status?	14
Q40. Which option avoids the standard UPSC close-option trap about Reorganisation structure?	15
Q41. Which statement correctly identifies Police-public-order consequence?	15
Q42. Which option preserves the legal or institutional boundary of Police-public-order consequence?	15
Q43. Which statement uses Police-public-order consequence without changing its institution, law or status?	15
Q44. Which option avoids the standard UPSC close-option trap about Police-public-order consequence?	16
Q45. Which statement correctly identifies Constitutional-domain firewall?	16
Q46. Which option preserves the legal or institutional boundary of Constitutional-domain firewall?	16
Q47. Which statement uses Constitutional-domain firewall without changing its institution, law or status?	17
Q48. Which option avoids the standard UPSC close-option trap about Constitutional-domain firewall?	17
Q49. Which statement correctly identifies J&K AFSPA distinction?	17
Q50. Which option preserves the legal or institutional boundary of J&K AFSPA distinction?	17
Q51. Which statement uses J&K AFSPA distinction without changing its institution, law or status?	18
Q52. Which option avoids the standard UPSC close-option trap about J&K AFSPA distinction?	18
Q53. Which statement correctly identifies Village Defence Guards boundary?	18
Q54. Which option preserves the legal or institutional boundary of Village Defence Guards boundary?	18
Q55. Which statement uses Village Defence Guards boundary without changing its institution, law or status?	19
Q56. Which option avoids the standard UPSC close-option trap about Village Defence Guards boundary?	19
Q57. Which statement correctly identifies Hearts-and-minds meaning?	19
Q58. Which option preserves the legal or institutional boundary of Hearts-and-minds meaning?	20
Q59. Which statement uses Hearts-and-minds meaning without changing its institution, law or status?	20

Q60. Which option avoids the standard UPSC close-option trap about Hearts-and-minds meaning?	20
Q61. Which statement correctly identifies Rehabilitation-evidence rung?	21
Q62. Which option preserves the legal or institutional boundary of Rehabilitation-evidence rung?	21
Q63. Which statement uses Rehabilitation-evidence rung without changing its institution, law or status?	21
Q64. Which option avoids the standard UPSC close-option trap about Rehabilitation-evidence rung?	21
Q65. Which statement correctly identifies CPEC bounded route?	22
Q66. Which option preserves the legal or institutional boundary of CPEC bounded route?	22
Q67. Which statement uses CPEC bounded route without changing its institution, law or status?	22
Q68. Which option avoids the standard UPSC close-option trap about CPEC bounded route?	22
Q69. Which statement correctly identifies Displacement-and-return boundary?	23
Q70. Which option preserves the legal or institutional boundary of Displacement-and-return boundary?	23
Q71. Which statement uses Displacement-and-return boundary without changing its institution, law or status?	23
Q72. Which option avoids the standard UPSC close-option trap about Displacement-and-return boundary?	24
Q73. Which statement correctly identifies Integrated response chain?	24
Q74. Which option preserves the legal or institutional boundary of Integrated response chain?	24
Q75. Which statement uses Integrated response chain without changing its institution, law or status?	24
Q76. Which option avoids the standard UPSC close-option trap about Integrated response chain?	25
Q77. Which statement correctly identifies Qualified end-state?	25
Q78. Which option preserves the legal or institutional boundary of Qualified end-state?	25
Q79. Which statement uses Qualified end-state without changing its institution, law or status?	25
Q80. Which option avoids the standard UPSC close-option trap about Qualified end-state?	26

Jammu & Kashmir and Cross-Border Terrorism - Solved Practice Workbook

BASIC MCQS / REMEDIATION

Q1. Which statement correctly identifies Accession anchor?

A. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. B. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. C. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. D. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary.

Answer: A. Explanation: Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q2. Which option preserves the legal or institutional boundary of Accession anchor?

A. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. B. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. C. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. D. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.

Answer: B. Explanation: Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q3. Which statement uses Accession anchor without changing its institution, law or status?

A. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. B. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. C. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. D. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Answer: C. Explanation: Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q4. Which option avoids the standard UPSC close-option trap about Accession anchor?

A. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. B. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. C. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. D. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity.

Answer: D. Explanation: Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q5. Which statement correctly identifies LoC legal-status boundary?

A. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. B. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. C. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. D. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.

Answer: A. Explanation: The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q6. Which option preserves the legal or institutional boundary of LoC legal-status boundary?

A. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. B. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. C. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. D. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement.

Answer: B. Explanation: The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q7. Which statement uses LoC legal-status boundary without changing its institution, law or status?

A. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. B. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. C. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. D. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Answer: C. Explanation: The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q8. Which option avoids the standard UPSC close-option trap about LoC legal-status boundary?

A. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. B. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. C. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. D. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary.

Answer: D. Explanation: The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q9. Which statement correctly identifies Proxy-war mechanism?

A. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. B. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. C. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. D. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Answer: A. Explanation: The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q10. Which option preserves the legal or institutional boundary of Proxy-war mechanism?

A. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. B. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. C. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. D. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Answer: B. Explanation: The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q11. Which statement uses Proxy-war mechanism without changing its institution, law or status?

A. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. B. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. C. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. D. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Answer: C. Explanation: The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q12. Which option avoids the standard UPSC close-option trap about Proxy-war mechanism?

A. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. B. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. C. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. D. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation.

Answer: D. Explanation: The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q13. Which statement correctly identifies Attribution gradient?

A. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. B. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. C. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. D. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement.

Answer: A. Explanation: Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q14. Which option preserves the legal or institutional boundary of Attribution gradient?

A. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. B. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. C. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. D. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof.

Answer: B. Explanation: Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q15. Which statement uses Attribution gradient without changing its institution, law or status?

A. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. B. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. C. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. D. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof.

Answer: C. Explanation: Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q16. Which option avoids the standard UPSC close-option trap about Attribution gradient?

A. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. B. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. C. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. D. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.

Answer: D. Explanation: Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q17. Which statement correctly identifies Ceasefire understanding?

A. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. B. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. C. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. D. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Answer: A. Explanation: The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q18. Which option preserves the legal or institutional boundary of Ceasefire understanding?

A. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. B. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. C. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. D. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.

Answer: B. Explanation: The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q19. Which statement uses Ceasefire understanding without changing its institution, law or status?

A. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. B. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. C. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. D. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.

Answer: C. Explanation: The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. The other options change the threat category, institutional owner, legal instrument, evidentiary

rung or implementation status.

Q20. Which option avoids the standard UPSC close-option trap about Ceasefire understanding?

A. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. B. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. C. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. D. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement.

Answer: D. Explanation: The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q21. Which statement correctly identifies Separate security metrics?

A. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. B. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. C. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. D. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof.

Answer: A. Explanation: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q22. Which option preserves the legal or institutional boundary of Separate security metrics?

A. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. B. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. C. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. D. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.

Answer: B. Explanation: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q23. Which statement uses Separate security metrics without changing its institution, law or status?

A. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. B. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. C. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. D. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one.

Answer: C. Explanation: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. The other

options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q24. Which option avoids the standard UPSC close-option trap about Separate security metrics?

A. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. B. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. C. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. D. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Answer: D. Explanation: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q25. Which statement correctly identifies OGW evidentiary boundary?

A. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. B. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. C. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. D. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one.

Answer: A. Explanation: An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q26. Which option preserves the legal or institutional boundary of OGW evidentiary boundary?

A. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. B. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. C. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. D. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.

Answer: B. Explanation: An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q27. Which statement uses OGW evidentiary boundary without changing its institution, law or status?

A. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. B. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. C. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. D. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one.

Answer: C. Explanation: An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q28. Which option avoids the standard UPSC close-option trap about OGW evidentiary boundary?

A. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. B. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. C. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. D. An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof.

Answer: D. Explanation: An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q29. Which statement correctly identifies OGW function map?

A. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. B. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. C. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. D. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.

Answer: A. Explanation: Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q30. Which option preserves the legal or institutional boundary of OGW function map?

A. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. B. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. C. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. D. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences.

Answer: B. Explanation: Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q31. Which statement uses OGW function map without changing its institution, law or status?

A. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. B. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. C. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. D. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.

Answer: C. Explanation: Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q32. Which option avoids the standard UPSC close-option trap about OGW function map?

A. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. B. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. C. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. D. Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof.

Answer: D. Explanation: Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q33. Which statement correctly identifies OGW response chain?

A. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. B. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. C. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. D. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain.

Answer: A. Explanation: Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q34. Which option preserves the legal or institutional boundary of OGW response chain?

A. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. B. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. C. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. D. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.

Answer: B. Explanation: Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q35. Which statement uses OGW response chain without changing its institution, law or status?

A. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. B. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. C. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. D. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.

Answer: C. Explanation: Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. The other options change the threat category, institutional owner, legal instrument,

Q36. Which option avoids the standard UPSC close-option trap about OGW response chain?

A. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. B. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. C. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. D. Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.

Answer: D. Explanation: Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q37. Which statement correctly identifies Reorganisation structure?

A. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. B. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. C. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. D. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain.

Answer: A. Explanation: The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q38. Which option preserves the legal or institutional boundary of Reorganisation structure?

A. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. B. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. C. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. D. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences.

Answer: B. Explanation: The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q39. Which statement uses Reorganisation structure without changing its institution, law or status?

A. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. B. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. C. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. D. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.

Answer: C. Explanation: The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q40. Which option avoids the standard UPSC close-option trap about Reorganisation structure?

A. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. B. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. C. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. D. The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one.

Answer: D. Explanation: The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q41. Which statement correctly identifies Police-public-order consequence?

A. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. B. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. C. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. D. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.

Answer: A. Explanation: Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q42. Which option preserves the legal or institutional boundary of Police-public-order consequence?

A. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. B. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. C. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. D. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.

Answer: B. Explanation: Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q43. Which statement uses Police-public-order consequence without changing its institution, law or status?

A. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. B. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. C. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. D. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks.

Answer: C. Explanation: Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q44. Which option avoids the standard UPSC close-option trap about Police-public-order consequence?

A. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. B. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. C. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. D. Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain.

Answer: D. Explanation: Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q45. Which statement correctly identifies Constitutional-domain firewall?

A. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. B. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. C. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. D. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability.

Answer: A. Explanation: Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q46. Which option preserves the legal or institutional boundary of Constitutional-domain firewall?

A. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. B. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. C. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. D. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability.

Answer: B. Explanation: Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q47. Which statement uses Constitutional-domain firewall without changing its institution, law or status?

A. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. B. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. C. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. D. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy.

Answer: C. Explanation: Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q48. Which option avoids the standard UPSC close-option trap about Constitutional-domain firewall?

A. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. B. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. C. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. D. Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences.

Answer: D. Explanation: Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q49. Which statement correctly identifies J&K AFSPA distinction?

A. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. B. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. C. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. D. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution.

Answer: A. Explanation: The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q50. Which option preserves the legal or institutional boundary of J&K AFSPA distinction?

A. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. B. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. C. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. D. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy.

Answer: B. Explanation: The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. The other options change

the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q51. Which statement uses J&K AFSPA distinction without changing its institution, law or status?

A. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. B. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. C. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. D. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source.

Answer: C. Explanation: The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q52. Which option avoids the standard UPSC close-option trap about J&K AFSPA distinction?

A. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. B. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. C. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. D. The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.

Answer: D. Explanation: The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q53. Which statement correctly identifies Village Defence Guards boundary?

A. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. B. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. C. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. D. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy.

Answer: A. Explanation: Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q54. Which option preserves the legal or institutional boundary of Village Defence Guards boundary?

A. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. B. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. C. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. D. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source.

Answer: B. Explanation: Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q55. Which statement uses Village Defence Guards boundary without changing its institution, law or status?

A. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. B. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. C. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. D. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy.

Answer: C. Explanation: Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q56. Which option avoids the standard UPSC close-option trap about Village Defence Guards boundary?

A. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. B. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. C. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. D. Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks.

Answer: D. Explanation: Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q57. Which statement correctly identifies Hearts-and-minds meaning?

A. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. B. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. C. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. D. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution.

Answer: A. Explanation: Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q58. Which option preserves the legal or institutional boundary of Hearts-and-minds meaning?

A. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. B. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. C. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. D. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.

Answer: B. Explanation: Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q59. Which statement uses Hearts-and-minds meaning without changing its institution, law or status?

A. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. B. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. C. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: C. Explanation: Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q60. Which option avoids the standard UPSC close-option trap about Hearts-and-minds meaning?

A. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. B. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. C. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. D. Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability.

Answer: D. Explanation: Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q61. Which statement correctly identifies Rehabilitation-evidence rung?

A. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. B. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. C. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. D. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.

Answer: A. Explanation: A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q62. Which option preserves the legal or institutional boundary of Rehabilitation-evidence rung?

A. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. B. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. C. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. D. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.

Answer: B. Explanation: A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q63. Which statement uses Rehabilitation-evidence rung without changing its institution, law or status?

A. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. B. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. C. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. D. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.

Answer: C. Explanation: A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q64. Which option avoids the standard UPSC close-option trap about Rehabilitation-evidence rung?

A. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. B. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. C. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. D. A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution.

Answer: D. Explanation: A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q65. Which statement correctly identifies CPEC bounded route?

A. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. B. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. C. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: A. Explanation: For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q66. Which option preserves the legal or institutional boundary of CPEC bounded route?

A. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. B. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. C. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: B. Explanation: For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q67. Which statement uses CPEC bounded route without changing its institution, law or status?

A. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. B. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. C. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: C. Explanation: For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q68. Which option avoids the standard UPSC close-option trap about CPEC bounded route?

A. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. B. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. C. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. D. For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy.

Answer: D. Explanation: For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q69. Which statement correctly identifies Displacement-and-return boundary?

A. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. B. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. C. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: A. Explanation: Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q70. Which option preserves the legal or institutional boundary of Displacement-and-return boundary?

A. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. B. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. C. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: B. Explanation: Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q71. Which statement uses Displacement-and-return boundary without changing its institution, law or status?

A. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. B. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. C. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. D. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation.

Answer: C. Explanation: Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q72. Which option avoids the standard UPSC close-option trap about Displacement-and-return boundary?

A. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. B. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. C. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. D. Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source.

Answer: D. Explanation: Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q73. Which statement correctly identifies Integrated response chain?

A. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. B. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. C. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: A. Explanation: Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q74. Which option preserves the legal or institutional boundary of Integrated response chain?

A. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. B. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. C. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. D. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation.

Answer: B. Explanation: Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q75. Which statement uses Integrated response chain without changing its institution, law or status?

A. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. B. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. C. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. D. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary.

Answer: C. Explanation: Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than

substitutes. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q76. Which option avoids the standard UPSC close-option trap about Integrated response chain?

A. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. B. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. C. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. D. Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.

Answer: D. Explanation: Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q77. Which statement correctly identifies Qualified end-state?

A. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. B. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. C. Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. D. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary.

Answer: A. Explanation: Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q78. Which option preserves the legal or institutional boundary of Qualified end-state?

A. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. B. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. C. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. D. The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary.

Answer: B. Explanation: Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q79. Which statement uses Qualified end-state without changing its institution, law or status?

A. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. B. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. C. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. D. The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation.

Answer: C. Explanation: Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does

not prove the wider conflict resolved. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

Q80. Which option avoids the standard UPSC close-option trap about Qualified end-state?

A. Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. B. The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. C. LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. D. Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Answer: D. Explanation: Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. The other options change the threat category, institutional owner, legal instrument, evidentiary rung or implementation status.

PYQS AND ANSWER PRACTICE

AUDITED TOPIC-SPECIFIC PYQ OWNERSHIP

The audited GS-III ledger routes the 2018 CPEC cross-subject demand, the 2019 OGW demand and the 2023 Jammu and Kashmir hearts-and-minds demand here. OCR inspection confirmed the 2019 and 2023 printed stems; no official model answer is inferred.

PYQ DEMAND CARD 1 - 2018 GS-III

Demand: CPEC as an OBOR subset and India's strategic objections.

Status: Audited routed demand; Enumerate · 10 marks · 150 words. The solution uses only the bounded sovereignty/security leg owned here.

Model solution: Accession anchor: Maharaja Hari Singh signed the Instrument of Accession on 26 October 1947 on Defence, External Affairs and Communications; detailed constitutional doctrine belongs to Polity. **LoC legal-status boundary:** The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. **Proxy-war mechanism:** The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Attribution gradient:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **CPEC bounded route:** For CPEC, this owner supplies only the sovereignty and security leg: the corridor passes through territory claimed by India and administered by Pakistan and may affect strategic logistics; wider connectivity and diplomacy belong to IR and Economy. **Qualified end-state:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. The solution therefore answers the routed demand without inventing an official model answer or an objective answer key.

PYQ DEMAND CARD 2 - 2019 GS-III

Demand: The role of over-ground workers in assisting terrorist organisations in insurgency-affected areas and measures to neutralise their influence.

Status: Printed stem inspected in the OCR-searchable official paper; Examine/Discuss · 10 marks · 150 words.

Model solution: Proxy-war mechanism: The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Attribution gradient:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **OGW evidentiary boundary:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through

admissible evidence; the label cannot lawfully substitute for proof. **OGW function map:** Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. **OGW response chain:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Hearts-and-minds meaning:** Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Integrated response chain:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Qualified end-state:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. The solution therefore answers the routed demand without inventing an official model answer or an objective answer key.

PYQ DEMAND CARD 3 - 2023 GS-III

Demand: Winning hearts and minds in terrorism-affected areas and Government measures for conflict resolution in Jammu and Kashmir.

Status: Printed stem inspected in the OCR-searchable official paper; Discuss · 10 marks · 150 words.

Model solution: Separate security metrics: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.

Reorganisation structure: The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. **Police-public-order consequence:** Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain.

Hearts-and-minds meaning: Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Rehabilitation-evidence rung:** A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution.

Displacement-and-return boundary: Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. **Integrated response chain:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Qualified end-state:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. The solution therefore answers the routed demand without inventing an official model answer or an objective answer key.

ORIGINAL MAINS 1 - 10 MARKS

Question: Explain why a LoC ceasefire cannot by itself establish the end of cross-border terrorism. Answer in about 150 words.

Model thesis: Claim: Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim: Ceasefire understanding. **Named evidence/example:** The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Separate security metrics.

Named evidence/example: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and

notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim -> named evidence -> analysis -> qualification:

- Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.
- The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement.
- LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.
- Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.
- Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Qualified conclusion: Claim: Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim: Ceasefire understanding. **Named evidence/example:** The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Separate security metrics.

Named evidence/example: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim: Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

ORIGINAL MAINS 2 - 10 MARKS

Question: Examine the role attributed to over-ground workers and propose evidence-led measures to neutralise unlawful facilitation. Answer in about 150 words.

Model thesis: **Claim:** Proxy-war mechanism. **Named evidence/example:** The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW function map. **Named evidence/example:** Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Hearts-and-minds meaning. **Named evidence/example:** Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim -> named evidence -> analysis -> qualification:

- The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation.
- Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.
- An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof.
- Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof.
- Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.
- Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability.

Qualified conclusion: **Claim:** Proxy-war mechanism. **Named evidence/example:** The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre

origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.

Analysis: This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW function map. **Named evidence/example:** Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Hearts-and-minds meaning. **Named evidence/example:** Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

ORIGINAL MAINS 3 - 15 MARKS

Question: Analyse the proxy-war mechanism in Jammu and Kashmir while preserving attribution and rights safeguards. Answer in about 250 words.

Model thesis: **Claim:** LoC legal-status boundary. **Named evidence/example:** The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Proxy-war mechanism. **Named evidence/example:** The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Separate security metrics. **Named evidence/example:** LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW function map. **Named evidence/example:** Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. **Analysis:** This fixes the threat category, legal instrument,

institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim -> named evidence -> analysis -> qualification:

- The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary.
- The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation.
- Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.
- LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.
- An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof.
- Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof.
- Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.
- Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.
- Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Qualified conclusion: **Claim:** LoC legal-status boundary. **Named evidence/example:** The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Proxy-war mechanism. **Named evidence/example:** The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Separate security metrics. **Named evidence/example:** LoC firing, attempted and successful infiltration, local

recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW function map. **Named evidence/example:** Possible facilitation functions include reconnaissance or information, shelter and logistics, communications, recruitment or propaganda, and finance, but each alleged function requires case-specific proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

ORIGINAL MAINS 4 - 15 MARKS

Question: Discuss the operational internal-security consequences of the 2019 reorganisation without entering the constitutional merits. Answer in about 250 words.

Model thesis: **Claim:** Reorganisation structure. **Named evidence/example:** The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Police-public-order consequence. **Named evidence/example:** Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Constitutional-domain firewall. **Named evidence/example:** Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** J&K AFSPA distinction. **Named evidence/example:** The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.

Analysis: This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim -> named evidence -> analysis -> qualification:

- The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one.
- Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain.
- Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences.
- The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East.
- Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.
- Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Qualified conclusion: **Claim:** Reorganisation structure. **Named evidence/example:** The Jammu and Kashmir Reorganisation Act, 2019 created the Union Territory of Jammu and Kashmir with a legislature and the Union Territory of Ladakh without one. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Police-public-order consequence. **Named evidence/example:** Under the 2019 Act, public order and police are outside the J&K Assembly's legislative competence, making the operational chain Lieutenant-Governor and Union centred rather than an ordinary Centre-State chain. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Constitutional-domain firewall. **Named evidence/example:** Article 370's text, the 2019 constitutional measures and the December 2023 Supreme Court reasoning belong to Polity; this topic uses only clearly identified operational internal-security consequences. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** J&K AFSPA distinction. **Named evidence/example:** The Armed Forces (Jammu and Kashmir) Special Powers Act, 1990 is distinct from the Armed Forces (Special Powers) Act, 1958 applicable in parts of the North-East. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

ORIGINAL MAINS 5 - 20 MARKS

Question: Critically evaluate the hearts-and-minds approach as part of conflict resolution in Jammu and Kashmir.
Answer in about 300 words.

Model thesis: **Claim:** Separate security metrics. **Named evidence/example:** LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Village Defence Guards boundary. **Named evidence/example:** Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Hearts-and-minds meaning. **Named evidence/example:** Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Rehabilitation-evidence rung. **Named evidence/example:** A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Displacement-and-return boundary. **Named evidence/example:** Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim -> named evidence -> analysis -> qualification:

- LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.
- An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof.

- Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.
- Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks.
- Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability.
- A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution.
- Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source.
- Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.
- Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Qualified conclusion: **Claim:** Separate security metrics. **Named evidence/example:** LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Village Defence Guards boundary. **Named evidence/example:** Village Defence Committees were renamed Village Defence Guards and operate under district SP or SSP supervision; local presence and warning benefits must be balanced against training, command and accountability risks. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Hearts-and-minds meaning. **Named evidence/example:** Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Rehabilitation-evidence rung. **Named evidence/example:** A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Displacement-and-return boundary. **Named evidence/example:** Kashmiri Pandit displacement is a durable rehabilitation and justice issue; any present return, residence, employment or security outcome requires a dated official source. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before

drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

ORIGINAL MAINS 6 - 20 MARKS

Question: Assess India's integrated response to cross-border proxy warfare across ceasefire, infiltration, facilitation, finance, governance and rehabilitation dimensions. Answer in about 300 words.

Model thesis: **Claim:** LoC legal-status boundary. **Named evidence/example:** The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Proxy-war mechanism. **Named evidence/example:** The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Ceasefire understanding. **Named evidence/example:** The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Separate security metrics. **Named evidence/example:** LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Hearts-and-minds meaning. **Named evidence/example:** Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Rehabilitation-evidence rung. **Named evidence/example:** A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation

status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.

Claim -> named evidence -> analysis -> qualification:

- The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary.
- The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation.
- Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label.
- The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement.
- LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently.
- An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof.
- Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence.
- Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability.
- A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution.
- Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes.
- Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved.

Qualified conclusion: **Claim:** LoC legal-status boundary. **Named evidence/example:** The Line of Control replaced the earlier ceasefire line after the 1971 war and the Shimla process; it is not described here as an internationally recognised boundary. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Proxy-war mechanism. **Named evidence/example:** The owner frames J&K militancy as externally enabled proxy warfare using deniable non-state intermediaries, infiltration, finance, weapons, propaganda and local facilitation. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Attribution gradient. **Named evidence/example:** Cross-border attribution must identify the evidentiary basis-material, communications, cadre origin, training provenance, financing trail or state-institution linkage-rather than rely on an unsupported label. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Ceasefire understanding. **Named evidence/example:** The November 2003 LoC ceasefire understanding was reaffirmed by the Indian and Pakistani DGMOs on 25 February 2021; it is a military-to-military arrangement, not a treaty or political settlement. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and

verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Separate security metrics.

Named evidence/example: LoC firing, attempted and successful infiltration, local recruitment, financing, drone or tunnel delivery, and hinterland incidents are distinct metrics that can move independently. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW evidentiary boundary. **Named evidence/example:** An over-ground worker is an alleged non-combatant facilitator whose role must be established through admissible evidence; the label cannot lawfully substitute for proof. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** OGW response chain. **Named evidence/example:** Neutralising facilitation requires protected community reporting, evidence-led investigation, lawful financial tracing, prevention or rehabilitation where appropriate, and prosecution on admissible evidence. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Hearts-and-minds meaning. **Named evidence/example:** Winning hearts and minds is an operational legitimacy strategy combining civilian protection, proportionate force, participation, grievance redress, service and livelihood delivery, rehabilitation and credible accountability. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Rehabilitation-evidence rung. **Named evidence/example:** A relief package, job, accommodation or registered beneficiary is an implementation input; none alone proves safe return, restored trust or conflict resolution. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Integrated response chain. **Named evidence/example:** Counter-infiltration, intelligence, policing, counter-finance, evidence-led investigation, prosecution, governance and communication are complementary layers rather than substitutes. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary. **Claim:** Qualified end-state. **Named evidence/example:** Durable security requires disruption of the proxy mechanism alongside civilian protection, lawful accountability, accountable local governance, rehabilitation and trust; a quieter LoC does not prove the wider conflict resolved. **Analysis:** This fixes the threat category, legal instrument, institutional mandate and verified evidentiary rung before drawing the policy implication. **Qualification:** The conclusion retains the owner's date, institution, legal character and notification-to-implementation status boundary.
