ASCII MASTER FLOW — PANEL 1/12: Three phases that must remain separate

```
GHAZNAVID PHASE             GHURID PHASE              DELHI SULTANATE
c. 990s-1186               1175-1206                from 1206
frontier war + raids       territorial bridgehead   Indian-centred consolidation
Punjab / Lahore base       Delhi-doab expansion      Aibak and Iltutmish
Mahmud != Muizz al-Din != Aibak.
MUST REMEMBER: Mahmud's raid-frontier strategy, Muizz al-Din's bridgehead and Aibak-Iltutmish
  consolidation are distinct phases.
```

ASCII MASTER FLOW — PANEL 2/12: Campaign chronology

963 -> Alp-tigin at Ghazni | 977 -> Sabuktigin
1001 -> Jayapala defeated | 1009 -> Anandapala defeated
1025-26 -> Somnath campaign | 1186 -> Ghurids take Lahore
1191 -> Tarain I, Ghurid defeat | 1192 -> Tarain II, Ghurid victory
1194 -> Chandawar | 1206 -> Muizz al-Din dies
RULE: battlefield victory and durable consolidation are different stages.

ASCII MASTER FLOW — PANEL 3/12: Source criticism matrix

AL-UTBI -> Mahmud court panegyric | victory rhetoric; ends before Somnath
AL-BIRUNI -> comparative Kitab al-Hind | elite textual and regional limits
BAYHAQI -> court and administration | fragmentary, mainly post-Mahmud
HASAN NIZAMI -> Aibak-linked conquest text | ornate legitimation
JUZJANI -> Ghurid-Delhi sequence | later court and clerical perspective
FIRISHTA -> much later compilation | cannot certify early numbers
MATERIAL RULE -> inscriptions + coins + archaeology test textual claims.

ASCII MASTER FLOW — PANEL 4/12: From Samanid service to Ghaznavid rule

```
SAMANID LEGACY -> Persianate administration + Islamic legitimacy
MILITARY NETWORK -> Turkic slave soldiers and commanders in service
ALPTIGIN -> SABUKTIGIN -> MAHMUD: office becomes dynastic power
BASE -> Ghazni + roads + cavalry + forts + taxation and court patronage
INDIA -> Shahi frontier war, then durable Punjab incorporation
LIMIT -> distant raids did not create a Gangetic Ghaznavid state.
```

ASCII MASTER FLOW — PANEL 5/12: Hindu Shahi resistance and frontier breach

```
KABUL / JALALABAD -> PESHAWAR -> SALT RANGE -> PUNJAB
        Hindu Shahi strategic depth and fortified corridors
Sabuktigin pressure -> Jayapala 1001 -> Anandapala 1009 -> Nandana
Kashmir 1015 failure -> weather and terrain still constrained Ghaznavids
VERDICT: prolonged resistance preceded a changing Punjab frontier.
```

ASCII MASTER FLOW — PANEL 6/12: Mahmud's campaigns: reach and limits

DURABLE BASE -> Ghazni + Punjab / Lahore
REPEATED TARGETS -> frontier forts, Multan, Mathura-Kanauj and Somnath
METHODS -> campaigning, tribute, plunder, garrisons and local arrangements
LIMITS -> no comparable permanent Ghaznavid Gangetic administration
RULE: repeated deep raids do not equal uniform territorial occupation.

ASCII MASTER FLOW — PANEL 7/12: Mahmud's motives as a matrix

```
FISCAL -> movable wealth and military finance
STRATEGIC -> rivals, frontier security and Punjab control
POLITICAL -> prestige and dynastic legitimation
RELIGIOUS -> ghazi and iconoclast rhetoric
CULTURAL -> court patronage and Persianate kingship
VERDICT: motives reinforced one another and varied by campaign.
```

ASCII MASTER FLOW — PANEL 8/12: Somnath and al-Biruni: event versus evidence

SOMNATH EVENT -> later textual layers, memory and political reuse
AL-UTBI -> cannot narrate 1025 because his account ends earlier
AL-BIRUNI -> scholarship on Indian learning, not a neutral social census
MATERIAL / REGIONAL EVIDENCE -> checks court and later literary claims
METHOD: identify date, genre, patron, report, corroboration and limit.

ASCII MASTER FLOW — PANEL 9/12: Ghaznavid and Ghurid projects compared

GHAZNAVIDS	GHURIDS
Punjab bridgehead + raids	staged territorial advance
Ghazni-Lahore axis	Multan-Punjab-Delhi-doab axis
deep campaigns, limited plains	commanders, garrisons and vassalage
state focus remained westward	wider north Indian succession problem

LINK: Ghurids displaced the last Ghaznavid at Lahore in 1186.

ASCII MASTER FLOW — PANEL 10/12: Tarain I and II

```
1191 TARAIN I                    1192 TARAIN II
Ghurid defeat                      Ghurid return and victory
Rajput capacity demonstrated       mounted harassment and reserves matter
no inevitable Turkish success      learning and command alter outcome
AFTERMATH -> occupation remained uneven; forts, rebellions and local deals continued.
CLOSE DISTINCTION: Tarain I (1191), Tarain II (1192) and Chandawar (1194) must remain in exact
  sequence.
```

ASCII MASTER FLOW — PANEL 11/12: Battlefield victory to consolidation

```
VICTORY -> delegated commanders + fort/garrison
CONTROL -> vassalage + revenue assignment + route security
ELITES -> Turkic/Persianate circulation plus incorporated local personnel
SOCIETY -> towns and religious sites change; older institutions continue
RESISTANCE -> rebellion and repeated campaigning test every claim
BOUNDARY -> Aibak/Bakhtiyar bridge to Topics 03 and regional owners
TRAP: Ghurid opening did not instantaneously replace north Indian society.
EVIDENCE LIMIT: Temple attack, plunder, political legitimacy and warfare require case-specific
  evidence; none proves mass conversion.
```

ASCII MASTER FLOW — PANEL 12/12: Topic 02 answer spine

```
OPEN -> distinguish Ghaznavid raid-base pattern from Ghurid advance
CONTEXT -> Samanids, military service, roads and frontier geography
MAHMUD -> campaigns + motives + Punjab base + limits
GHURIDS -> Lahore, Tarain, Chandawar and delegated occupation
CAUSES -> organisation and contingency, not racial or weapon determinism
SOURCES -> court rhetoric checked by texts, coins and monuments
CLOSE -> conquest opened a process; consolidation remained contested.
```
