ASCII MASTER FLOWCHART

The Beginnings of European Settlements

12-panel revision companion | GS-I Modern Indian History

ASCII MASTER FLOW — PANEL 1/12: Scope: contact, settlement and empire are different stages

```
CAPE ROUTE 1498 -> repeated trade -> factory by Indian permission
FACTORY -> fortified settlement -> presidency / regional coordination
POSSIBLE COMPANY-STATE -> additionally needs finance, army, allies, victory and revenue
ANTI-TELEOLOGY -> neither a European charter nor the first voyage made conquest inevitable.
MUST REMEMBER: The maritime sequence runs through the Portuguese arrival in 1498 and Goa in
  1510, the English Company charter of 1600, the Dutch VOC of 1602 and the French Company of
  1664.
```

ASCII MASTER FLOW — PANEL 2/12: Indian Ocean setting and mercantilist armed commerce

```
PRE-1498 -> monsoon routes + Asian merchants + Indian ports and manufactures
MERCANTILISM -> chartered monopoly seeks bullion, commodities and protected markets
ARMED COMMERCE -> ship cannon + fort + pass + diplomacy + corporate privilege
LIMIT -> Europeans entered an existing oceanic economy; older circuits did not disappear.
```

ASCII MASTER FLOW — PANEL 3/12: Portuguese Estado da India and cartaz

```
1498 CALICUT -> 1505 Estado administration -> GOA captured 1510 / capital 1530
ESTADO -> Crown + viceroy/governor + fleet + forts + royal factories
CARTAZ -> coerced shipping pass; fortified nodes at Goa, Cochin, Diu and Daman
LIMIT -> nodal and contested control, never a complete monopoly of Indian Ocean trade.
```

ASCII MASTER FLOW — PANEL 4/12: Portuguese cultural transfer and bounded Goa heritage

```
XAVIER -> Goa 1542; founding Jesuit companion; died off China, remains at Bom Jesus
GOA PRESS 1556 | INQUISITION 1560 -> mission, print, coercion and accommodation coexist
CROPS -> papaya, pineapple and guava through Portuguese networks; no exact transfer year
UNESCO -> Indo-Portuguese forms + local adaptation; threats include damp, weathering, termites.
```

ASCII MASTER FLOW — PANEL 5/12: Dutch VOC: commercial strength, India inside an Asian portfolio

```
VOC 1602 -> joint-stock capital + treaty, war and fortification powers
INDIAN NODES -> Masulipatnam, Pulicat, Nagapattinam, Surat, Chinsura and Cochin
PRIORITY -> Indian textiles finance an Indonesia-centred spice and intra-Asian portfolio
CHECKS -> Colachel 1741 / Bedara 1759; political retreat did not instantly end trade.
```

ASCII MASTER FLOW — PANEL 6/12: English entry: charter, naval credibility and Mughal permission

```
EIC CHARTER 1600 -> corporate monopoly in English law, not Indian sovereignty
SWALLY 1612 -> naval credibility alters Mughal bargaining
SURAT FACTORY 1613 -> licensed depot; ROE 1615-19 -> privileges confirmed
CHILD'S WAR 1686-90 -> Mughal victory proves early Company weakness and contingency.
```

ASCII MASTER FLOW — PANEL 7/12: English fortified settlement chain

```
MASULIPATNAM 1611 -> MADRAS lease 1639 -> Fort St George from 1640
BOMBAY -> Portuguese possession -> Crown 1661 -> Company 1668 -> presidency HQ 1687
BENGAL -> Hugli / Kasimbazar -> three-village Calcutta hub -> 1698 zamindari -> 1717 farman
CAUTION -> Job Charnock is a conventional association, not an uncontested sole founder.
```

ASCII MASTER FLOW — PANEL 8/12: Institutional vocabulary that prevents category errors

```
CHARTER -> home sovereign creates company | FARMAN -> Indian sovereign grants privilege
FACTORY -> depot + factors | FORT -> defended enclave, not automatic hinterland rule
PRESIDENCY -> regional council coordinating factories, fleets, defence and diplomacy
COMPANY-STATE -> enforceable war, justice, taxation and territory; capacity must match claim.
```

ASCII MASTER FLOW — PANEL 9/12: French Compagnie and Indian settlement chain

```
COMPAGNIE DES INDES 1664 -> Colbert / Louis XIV state-backed monopoly
SURAT 1668 -> MASULIPATNAM 1669 -> PONDICHERRY 1673-74 -> CHANDERNAGORE c.1690-92
DUPLEIX -> trade + trained troops + claimant politics; Indian allies retain their own aims
LIMIT -> finance, naval continuity and home-state priorities constrain French intervention.
```

ASCII MASTER FLOW — PANEL 10/12: Carnatic conclusion: European rivalry becomes Indian politics

```
FIRST WAR 1746-48 -> French take Madras -> Aix-la-Chapelle restores it
SECOND 1749-54 -> Carnatic / Hyderabad claimants + Arcot -> Dupleix recalled
THIRD 1756-63 -> Seven Years' War -> WANDIWASH 1760 breaks French field power
PARIS 1763 -> factories survive, political ambition checked; no single-cause English victory.
CLOSE DISTINCTION: A factory was a trading station, not automatically territorial sovereignty;
  cartaz, naval force, diplomacy, farmans and fortified settlements had different
  legal-political effects.
```

ASCII MASTER FLOW — PANEL 11/12: Indian agency and the port-hinterland engine

```
RULERS -> grant, revise, resist and use rival companies against one another
MERCHANTS / BANKERS / DUBASHES -> credit, brokerage, customs and information
WEAVERS / ARTISANS / SHIPBUILDERS / LABOUR -> make commercial settlements viable
ASYMMETRY -> agency was real but unequal; forts still depended on surrounding Indian society.
EVIDENCE LIMIT: European archives privilege company aims; Indian merchants, rulers, port
  ecologies and Asian commercial rivals are necessary evidence against a Europe-only
  inevitability story.
```

ASCII MASTER FLOW — PANEL 12/12: Topic 03 answer and PYQ spine

```
COMPARE -> Estado/cartaz | VOC portfolio | EIC presidency chain | French state backing
EXPLAIN -> mercantilism + navy + finance + Indian permission/agency + political contingency
PYQ TRAPS -> Broach window; Xavier death/remains; Goa-Bijapur; Madras grant; three crops
CLOSE -> Wandiwash/Paris end European rivalry; Plassey-Buxar mechanics pass to Topic 04.
```
